Welcome to EkitiWeb3 Conference 2.0 - The Convergence

Building on the success of previous editions, the EkitiWeb3 Conference returns with an even bigger vision bringing together leading innovators, industry experts, founders, developers, and policy influencers across Nigeria and Africa

The EkitiWeb3 Conference is a 1-day in-person experience featuring keynote sessions, product showcases, panel discussions, and hands-on workshops led by top minds in the blockchain and emerging technology space.

Beyond thought leadership, the conference creates a unique opportunity to connect with Ekiti State's fast-growing tech ecosystem uniting developers, creators, investors, students, entrepreneurs, regulators, and blockchain enthusiasts in one dynamic environment.

Why EkitiWeb3: Convergence?

Technology in Africa is growing fast, and many new tools blockchain, AI, fintech, digital identity, and more are starting to work together. This mix is what we call convergence.EkitiWeb3 aims to show how these technologies connect and how they can help people build better products, businesses, and opportunities.Nigeria is already a leader in digital innovation and young tech talent. The EkitiWeb3 Conference brings everyone together to learn, share ideas, and explore how these new technologies can shape the future.

Who We Are

EkitiWeb3 is a growing community of creatives, builders, and innovators working to expand Web3 adoption in Ekiti State.
We bring together developers, students, founders, and tech enthusiasts to learn, build, and take part in the global blockchain movement.

Over the past editions, EkitiWeb3 has hosted workshops, meetups, training sessions, joined hackathons, and major conferences creating one of the most active Web3 communities in Southwest Nigeria.

We connect people in Ekiti to opportunities, global resources, and experts from different blockchain ecosystems. Our goal is simple: to support innovation, develop talent, and make Ekiti a rising hub for Web3 and digital technology in Nigeria and beyond.

What to Expect

* Practical workshops and learning sessions
  Learn hands-on skills in blockchain, AI, digital products, and emerging technologies.

* Networking with key people in tech
  Connect with founders, creators, developers, policymakers, and investors across Nigeria.

* A comfortable and well equipped venue
  Fast WiFi, power outlets, workspaces, food, and lounges for connection and rest.

* Inspiring keynote speeches
  Hear from respected leaders in technology, government, and the digital economy.

* Sessions from innovators building the future
  Gain insight from experts working on real Web3, fintech, AI, and digital solutions.

* Panel discussions and presentations
  Understand how multiple technologies come together to create new opportunities.

More than 1000 blockchain experts and enthusiasts will converge in EkitiWeb3 conference, the largest Web3 conference in Ekiti Nigeria.
